

# Box of Energy product portfolio – Application for Residential/Real Estate

*-The feeling of independence and true green energy*

ONE

Choose between 5,5 and 7 kWh  
Discharge power: 3,2 kW  
Charge power: 3,6 kW  
Lifetime: 15 years to 40% of capacity  
Weight: 150 (kg)  
Dimensions: 130\*80\*96 (cm)

# Box of Energy product portfolio – Application for Large scale Real Estate

*-Let your customers shop with no concerns over environmental aspects*

PRO

Scalable from 7 to 28 kWh  
Discharge power: 4,2 kW  
Charge power: 6,4 -18 kW  
Lifetime: 15 years to 40% of capacity  
Weight: 150-560 (kg)  
Dimensions: 195\*80\*90 (cm)

# Box of Energy product portfolio – Large scalable solutions

-Next generation is demanding renewable energy solutions

MULTI

Scalable from 14 kWh -  
Discharge power: 8,4 kW -  
Charge power: 6,4 kW -  
Lifetime: 15 years to 40% of capacity  
Weight: 150-560 (kg)  
Dimensions: 195\*80\*90 (cm)

# Why Box of Energy ?

**2<sup>nd</sup> used application** – to reduce waste and impact on the environment.

**Self-sufficient** – We strive to take our customer all the way towards 100% self-sufficiency and to reduce their energy cost.

**Quality** – Our heritage from the automotive industry gives us high quality standards and satisfied lifetime. We monitor our systems 24/7 for reliable operation.

**Manufacturing** – We have our own manufacturing plant where we constantly monitor the quality of our 2<sup>nd</sup> used batteries and the production line.

**Solar or wind** – Doesn't matter, we can store any renewable energy from any renewable source.

**Scalable system** – Box of Energy is a scalable system and is available from residential to industrial applications.

**Peak-power** – We have a satisfying peakpower to cope with highpeak effects that help to reduce energy cost from peakeffect tariffs.

**Our team** – We are there all the way from development and production to installation with our coreteam to fulfill the quality that our customers demands.

A gravel path leads through a field of white flowers towards a sunset over a hill. The scene is bathed in the warm, golden light of the setting sun, creating a soft, atmospheric glow. The path is made of dark gravel and leads the eye from the foreground into the distance. The field is filled with small, delicate white flowers, possibly daisies, which are in sharp focus in the foreground. In the background, a dark silhouette of a hill or mountain rises against the bright sky. The overall mood is peaceful and hopeful, suggesting a journey towards a bright future.

Ready to be more independent? Let us know and  
we'll take this journey together!
